### SAFETY DATA SHEET PY GREEN BEIGE RAL1000 PIGMENT

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

1.1. Product identifierProduct namePY GREEN BEIGE RAL1000 PIGMENTProduct numberWS20631A		
Product number WS20631A		
1.2. Relevant identified uses of the substance or mixture and uses advised against		
Identified uses COLOURING OF POLYESTER RESINS & GELCOATS.		
1.3. Details of the supplier of the safety data sheet		
SupplierWEST AND SENIOR LIMITED. MILLTOWN STREET RADCLIFFEMANCHESTER. M26 1WE.TEL + 44 01617247131 FAX + 44 01617249519 info@westsenior.co.uk		
1.4. Emergency telephone number		
Emergency telephone24 HOUR EMERGENCY TELEPHONE NUMBER : + 44 (0) 7930 595916		
SECTION 2: Hazards identification		
2.1. Classification of the substance or mixture		
Classification (EC 1272/2008)		
Physical hazards Not Classified		
Health hazards Not Classified		
Environmental hazards Not Classified		
<ul><li>Environmental The product is not expected to be hazardous to the environment.</li><li>2.2. Label elements</li></ul>		
Hazard statements NC Not Classified		
Supplemental labelEUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do notinformationbreathe spray or mist.		
2.3. Other hazards		

This product does not contain any substances classified as PBT or vPvB.

### **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

TITANIUM DIOXIDE		30-60%
CAS number: 13463-67-7	EC number: 236-675-5	REACH registration number: 01- 2119489379-17-0000
Classification Not Classified		
BARIUM SULPHATE		5-109
CAS number: 7727-43-7	EC number: 231-784-4	REACH registration number: 01- 2119491274-35-0001
Classification Not Classified		
C.I. PIGMENT YELLOW 42		1-59
CAS number: 51274-00-1	EC number: 257-098-5	REACH registration number: 01- 2119457554-33-0000
Classification Not Classified		
The full text for all hazard state	ements is displayed in Section 16.

Notes for the doctor	No specific recommendations.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from	om the substance or mixture
Specific hazards	No unusual fire or explosion hazards noted.
Hazardous combustion products	Heating may generate flammable vapours. Vapours may form explosive mixtures with air.
5.3. Advice for firefighters	
Protective actions during firefighting	No specific firefighting precautions known.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Avoid heat, flames and other sources of ignition. Provide adequate ventilation.
6.2. Environmental precaution	S
Environmental precautions	Avoid the spillage or runoff entering drains, sewers or watercourses.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Stop leak if possible without risk. Absorb in vermiculite, dry sand or earth and place into containers. Avoid the spillage or runoff entering drains, sewers or watercourses.
6.4. Reference to other section	ns
Reference to other sections	For waste disposal, see section 13.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Take precautionary measures against static discharges. Contaminated rags and cloths must be put in fireproof containers for disposal.
7.2. Conditions for safe storag	e, including any incompatibilities
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep separate from food, feedstuffs, fertilisers and other sensitive material.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure control	s/Personal protection
8.1. Control parameters Occupational exposure limits TITANIUM DIOXIDE

8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	No specific ventilation requirements.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of skin contact.

Hygiene measuresDo not smoke in work area. Wash at the end of each work shift and before eating, smoking<br/>and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any<br/>clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin.

### **SECTION 9: Physical and chemical properties**

9.1. Information on basic physi	ical and chemical properties
Appearance	Viscous liquid. or Coloured paste.
Colour	Various colours.
Odour	Aromatic.
Odour threshold	No information available.
рН	No information available.
Melting point	No information available.
Initial boiling point and range	No information available.
Flash point	>65°C
Evaporation rate	No information available.
Evaporation factor	No information available.
Flammability (solid, gas)	No information available.
Upper/lower flammability or explosive limits	No information available.
Other flammability	No information available.
Vapour pressure	No information available.
Vapour density	No information available.
Relative density	No information available.
Bulk density	No information available.
Solubility(ies)	Organic solvents. Insoluble in water.
Partition coefficient	Not available.
Auto-ignition temperature	No information available.
Decomposition Temperature	No information available.
Viscosity	No information available.
Explosive properties	No information available.
Explosive under the influence of a flame	No
Oxidising properties	Not available.
Comments	No information available.
9.2. Other information	
Other information	No information required.
SECTION 10: Stability and rea	ctivity

10.1. Reactivity

Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures.
10.3. Possibility of hazardou	is reactions
Possibility of hazardous reactions	No potentially hazardous reactions known.
10.4. Conditions to avoid	
Conditions to avoid	Avoid excessive heat for prolonged periods of time. Avoid heat, flames and other sources of ignition.
10.5. Incompatible materials	8
Materials to avoid	No information available.
10.6. Hazardous decompos	ition products
Hazardous decomposition products	Thermal decomposition may lead to formation of a multiplicity of compounds some of which may be hazardous. With incomplete combustion smoke and hazardous fumes and gases , including carbon monoxide, may be formed.
SECTION 11: Toxicological	information
11.1. Information on toxicolo	ogical effects
Toxicological effects	Not classified.
Acute toxicity - oral Notes (oral LD₅o)	Not relevant.
Acute toxicity - dermal	
Notes (dermal LD₅₀)	Not relevant.
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Not relevant.
Acute and chronic health hazards	No specific health hazards known.
Toxicological information on	ingredients.
	CARBON BLACK
Acute toxicity -	oral
Notes (oral LD	<b>50)</b> LD₅₀ >8000 mg/kg, Oral, Rat
Germ cell muta	agenicity
Summary	In vivo mutagenicity in rats occurs by mechanisms secondary to a threshold effect and is a consequence of "lung overload," which leads to chronic inflammation and the release of genotoxic oxygen species. This mechanism is considered to be a secondary genotoxic effect and, thus, carbon black itself would not be considered to be mutagenic.

Genotoxicity - in Genotoxicity - in	<ul> <li>test) and other in vitro systems because of its insolubility. However, when organic solvent extracts of carbon black have been tested, results showed no mutagenic effects. Organic solvent extracts of carbon black can contain traces of polycyclic aromatic hydrocarbons (PAHs). A study to examine the bioavailability of these PAHs showed that they are very tightly bound to carbon black and are not bioavailable (Borm, 2005).</li> <li>vivo In an experimental investigation, mutational changes in the hprt ene were reported in alveolar epithelial cells in the rat following inhalation exposure to carbon black (Driscoll, 1997). This observation is considered to be rat-specific and a consequence of "lung overload," which leads to chronic inflammation and release of reactive oxygen species. This is considered to be a secondary genotoxic effect and, thus, carbon black itself would not be</li> </ul>
Carcinogenicity	considered to be mutagenic.
IARC carcinoge	nicity IARC Group 2B Possibly carcinogenic to humans.
SECTION 12: Ecological info	
Ecotoxicity	Not regarded as dangerous for the environment.
12.1. Toxicity	
Toxicity	Not considered toxic to fish.
12.2. Persistence and degrad	ability
Persistence and degradability	There are no data on the degradability of this product.
12.3. Bioaccumulative potenti	al
Partition coefficient	Not available.
12.4. Mobility in soil	
Mobility	No information available.
12.5. Results of PBT and vPv	B assessment
Results of PBT and vPvB assessment	No information available.
12.6. Other adverse effects	
Other adverse effects	None known.
SECTION 13: Disposal consid	derations
13.1. Waste treatment metho	ds
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Empty containers should be taken to an approved waste handling site for recycling or disposal.
SECTION 14: Transport infor	nation
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	

### Not applicable.

### 14.2. UN proper shipping name

Not applicable.

### 14.3. Transport hazard class(es)

Not applicable.

#### 14.4. Packing group

Not applicable.

### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

### 14.6. Special precautions for user

Not applicable.

### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not relevant. Annex II of MARPOL 73/78 and the IBC Code

### SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations	Control of Substances Hazardous to Health Regulations 2002 (as amended).
EU legislation	Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 with amendments.
Guidance	A guide to local exhaust ventilation (LEV) HSG258 (as ammended) Workplace Exposure Limits EH40.

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information		
Revision date	03/12/2021	
Revision	5	

Supersedes date 17/07/2018
