

Technical Data Sheet

Product Code VACleaseLT28B1.5P3

Product Description Blue, low temperature perforated release film – 28 micron thickness
Roll size 1.5 metres wide x 250 metres long
Maximum usage temperature 100°C

General Description Perforated release film designed for resin infusion applications, and compatible with most epoxy, polyester and vinylester resin systems.

Properties

Colour: Blue
Film Thickness: 0.028mm (28 micron)
Density: 0.97 g/cm³
Tensile Strength at Break: 51 N/mm²
Elongation at Break: 560%
Maximum Usage Temperature: 100°C

IMPORTANT INFORMATION:

The information cited is in good faith and has been established from sources held to be secure and reliable. The values listed are typical properties and are not intended to be used as specifications for defined applications. Users must determine the product suitability for the end use application and assume all risks and liabilities.
